

MASK OF WELLNESS

'Mask of Wellness' is a movement started by an emergency physician on the frontline, who saw the deep impact COVID-19 has had upon the health and wealth of our society. He and a group of volunteers created a positive empowered method to help businesses operate in a COVID-safe manner while also attracting customers during this challenging time. Businesses will be empowered to freely choose simple impactful safety measures and engage in responsible behavior. Consumers will seek out 'Covid-Conscious' businesses in turn benefitting the health, wealth and wellness of individuals and businesses in all of OUR communities.
